

AYUSHMAN

Full-Stack Software Developer | React · Next.js · Node.js · TypeScript

Ghaziabad, Uttar Pradesh

Phone: +91 7398531384 ayushmanjaiswal199@gmail.com linkedin.com/in/ayushman-jaiswal github.com/Ayushman9889

Summary

Full-Stack Software Developer experienced in building scalable web applications and RESTful APIs. Specialized in integrating AI models (**Google Gemini**), designing secure authentication systems, and database modeling. Demonstrated strong problem-solving abilities with a solid DSA foundation (1825+ LeetCode rating, 300+ problems solved).

Education

ABES Engineering College

2023 - 2027

Bachelor of Technology in Computer Science and Engineering

Ghaziabad, Uttar Pradesh

- CGPA: 8 / 10

Experience

ABES Engineering College

July 2026 - Present

Student Teaching Assistant - Data Structures & Algorithms

Ghaziabad, Uttar Pradesh

- Mentored 100+ students in Data Structures & Algorithms (DSA) problem-solving sessions covering arrays, trees, graphs, and dynamic programming.
- Debugged and reviewed student-submitted C++ solutions in real time, identifying logical errors and guiding students toward correct, optimized implementations.
- Explained algorithmic concepts and time-space complexity trade-offs, enabling students to transition from brute-force to efficient solutions.

Projects

Cook-With-Zavo | Next.js, React, Strapi CMS, PostgreSQL, Gemini API | [GitHub](#) | [Live](#)

May 2026 - Jun 2026

- Developed a full-stack AI recipe platform (Next.js, Strapi CMS) enabling pantry-based recipe generation, recipe discovery, and PDF export.
- Integrated Google Gemini API to generate structured recipes with instructions, nutrition breakdowns, and ingredient substitutions.
- Secured REST API routes with Clerk authentication, JWT validation, and Arcjet rate limiting, successfully mitigating API abuse and ensuring high availability.

Thumblify | TypeScript, MongoDB, Express, React, Node.js | [GitHub](#) | [Live](#)

Jan 2026 - Mar 2026

- Built a full-stack MERN application generating multiple AI-powered thumbnail variations from a single text prompt.
- Integrated Google Gemini API to produce diverse thumbnail concepts and automated prompt refinements per user input.
- Implemented JWT-based authentication and Cloudinary integration for secure access, significantly optimizing image delivery and reducing load times.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++, SQL

Frontend: React.js, Next.js, Tailwind CSS, Shaden UI, Radix UI, HTML5, CSS3

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Clerk, Arcjet

Databases: MongoDB, PostgreSQL, OracleDB, Strapi CMS

Tools & Cloud: Git, GitHub, Postman, AWS, Vercel, Cloudinary, Google Gemini API, VS Code

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Achievements & Certifications

- Achieved a **1825+** contest rating and solved **300+** problems on **LeetCode**.
- Attained a **1550+** contest rating and earned a 2★ rating on **CodeChef**.
- Earned the **Problem Solving (Intermediate)** certification on **HackerRank**.
- Achieved a 5★ rating in C++ on **HackerRank**.

Leadership & Extracurricular

- Tech Lead, En Passant – Chess Forum, ABESEC (2025 – 2026):** Directed technical operations and coordinated tournament execution, ensuring a seamless event experience for all participants.
- Top 5 Finalist, Build with Delhi Hackathon (2025):** Developed an innovative software solution under strict time constraints, successfully advancing to the final round of the competition.
- National Competitor, Cognizant Technoverse Hackathon (April 2026):** Advanced through multiple highly competitive preliminary rounds in a national-level software development hackathon.
